Technology In Society

Subject/Title Index to Volume 12, 1990

academic values, university-industry connections and, 427
acknowledgement, special issue, 101
architecture of disengagement, 319
Argentina, space and national development, 79
Australia, Japanese technological challenge, 283
Australia, insurance industry, 11

Biotechnology and Culture: The Impact of Public Debates on Government Regulation in the United States and Denmark, 27
Brazil, space and national development, 79
Brazil, ethyl alcohol as motor fuel, 255

Can Germany Afford Reunification and a Space Program Too? 355
Canada, comparative advantage of small, open economy, 369
Case for a Paradigmatic View of Technology, 479
centrally planned economies, technology, 397
Challenge of Introducing Digital Audio Tape Technology into Consumer Markets, 91
Challenge of Water in Transnational Mega-Projects (The), 121
champions, 'national', 235
Changing Patterns of Communication Among Scientists in an Era of "Telescience", 457
Changing Nature and Environment of Major Technological Projects, Special Issue, 103-233
corporate culture, technology and the Australian insurance industry, 11

DAT, (digital audio tape), 91
Denmark, impact of public debates on biotechnology regulations, 27
designing work, 301
disengagement, architecture of, 319
distributed objectives, 173

Engineering in a Global Economy: A United States Perspective, 107
Engineering the Canadian Comparative Advantage: Technology, Trade, and Investment in a Small, Open Economy, 369
Ethyl Alcohol as a Motor Fuel in Brazil: A Case Study in Industrial Policy, 255
evolution model, landscape, 479

From Unitary to Distributed Objectives; The Changing Nature of Major Projects, 173
From Edifice to Device: Architecture of Disengagement, 319

Germany, reunification and space program, 355
global economy, engineering in, 107

Hungary, US scientific cooperation, 1

industry - university connections, 427
insurance industry, technology and, 11
international cooperation, need for in macro projects, 157
Internationalization of US Intergovernmental Relations in Science and Technology Policy, 217
Introduction: Special Issue, The Changing Nature and Environment of Major Technological Projects, 103

Japan, macro-engineering, 45
Japanese Technological Challenge to Australia (The), 283

Landscape Evolution Model (The): A Case for a Paradigmatic View of Technology, 479

Macro Projects: Status, Prospects, and the Need for International Cooperation, 157
Macro-Engineering: A View from Japan, 45
major projects, changing nature of, 173
Management of Technology in Centrally Planned Economies, 397
motor fuel, Brazil, 255
moments, therapeutic, in technology assessment, 441

NASA and the Loss of Space Policy Leadership, 139

Parallelism and the Crisis of von Neumann Computing, 65
patterns of communication, changing, 457
Producing 'National Champions' in Technology Through Deliberate Strategic Decisions, 235
production, organizing in high tech age, 301
projects, strategic management, 197

Reaching Out to Touch Someone? Reflections on a 1923 Candlestick Telephone, 333

scientific communication, changing patterns of, 457

Scientific Cooperation Between the United States and Eastern Europe: US-Hungarian Exchanges, 1
space policy leadership, loss of, 139
Space and National Development: Are Brazil and Argentina Examples?, 79
space program, Germany, 355
Strategic Management of Projects (The), 197
strategic decisions to produce 'national' champions, 235

technological projects, major, 103
technology management, centrally planned economies, 397
technology assessment, therapeutic moments in, 441
technology, Canadian advantage, 369
Technology, Corporate Culture and the Insurance Industry: The Australian Experience, 11
technology, digital audio tapes, 91
technology, paradigmatic view of, 479
telephone, 1923 candlestick, 333
"telescience", 457
Therapeutic Moments in Technology Assessment, 441
trade, Canada, 369
transnational mega-projects, 121

unitary objectives, 173
United States, impact of public debates on biotechnology regulations, 27
United States, scientific cooperation with Eastern Europe, 1
United States perspective of global economy, 107
United States intergovernmental relations, 217
University-Industry connections and Academic Values, 427

von Neumann computing, 65

water, mega-projects, 121
Who Designs Work? Organizing Production in an Age of High Technology, 301

Author Index to Volume 12, 1990

Alic, John A., 301

Baark, Erik, 27
Berrien, David, 1
Bugliarello, George, 101

Carley, Kathleen, 457
Chiang, Jong-Tsong, 235
Chiang, Jong-Tsong, 397

De la Mothe, John, 369
Demetris, Jordan, 91
Dufour, Paul R., 369

Etzkowitz, Henry, 427

Haltman, Kenneth, 333
Hanna, John S., 121
Higgs, Eric Stowe, 479
Hill, Stephen, 11
Hori, Hiroshi, 45
Horwitch, Mel, 173
Hull, Cordell W., 107
Jamison, Andrew, 27
Jarmas, Rebecca duPont, 121

Johnson-Freese, Joan, 355

Kupfer, Joseph, 319

Lievrouw, Leah A., 457

Morris, Peter W. G., 197
Muspratt, Murray A., 283

Nueno, Pedro, 103

Pelaez, Eloina, 65
Peters, Lois S., 427

Roberts, Christopher B., 139
Rycroft, Robert W., 217

Sassower, Raphael, 441
Schillinger, A. George, 101
Schweitzer, Glenn, 1
Sykes, Allen, 157

Weiss, Jr., Charles, 255
Wise, Steve, 79
